

Our usual activities have been put on hold because of the novel coronavirus that causes the disease, Covid-19. How much have we learnt about it since we first heard of it? The ethos of U3A is learning so please watch the informative video ***The Coronavirus Explained and What You Should Do*** by clicking on this weblink:
<https://www.youtube.com/watch?v=BtN-goy9VOY&feature=youtu.be>
When YouTube first opens, you will probably see a still shot, promoting an unrelated YouTube video. Just wait a few seconds for it to fade away and then the Coronavirus video will appear. Click on the arrow in the centre of the screen to start watching, listening and learning!

This week's music for the soul is "Bring It Home" from Les Misérables. Settle in to your front row seat and click on <https://www.youtube.com/watch?v=Atc41UEViPs&app=desktop>

This Easter will be like no other we can remember but some things will be the same, no matter where we are, who we are with and whatever our age. Enjoy this Easter video message and go easy on the chocolate!
<https://www.youtube.com/watch?v=4Xgk6g-ovjM>

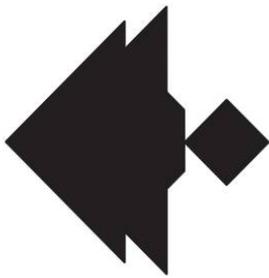

Is it a bird?
Is it a plane?
No!
It's Constance's chief olive plucker!

Jean Claude takes a well-deserved break during the olive harvest. (He must have read KIT 3: Things To Do When You Self-Isolate)

The Tangram Challenge

This week, try to recreate these shapes:

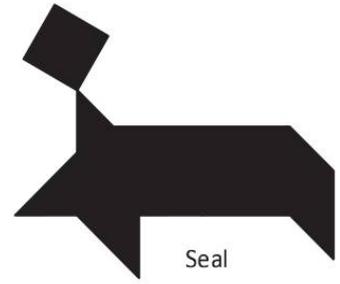

Fish

Swan

Cat

Seal

You must use all 7 tans, they must touch and they may not overlap.
 Note that the parallelogram  may have to be flipped over  to create some of the shapes in the various challenges.

If you need the template to make the 7 tans (pieces), please contact Cheryl via email (contact details on last page). Solutions in the next issue of KIT.

SHAPES

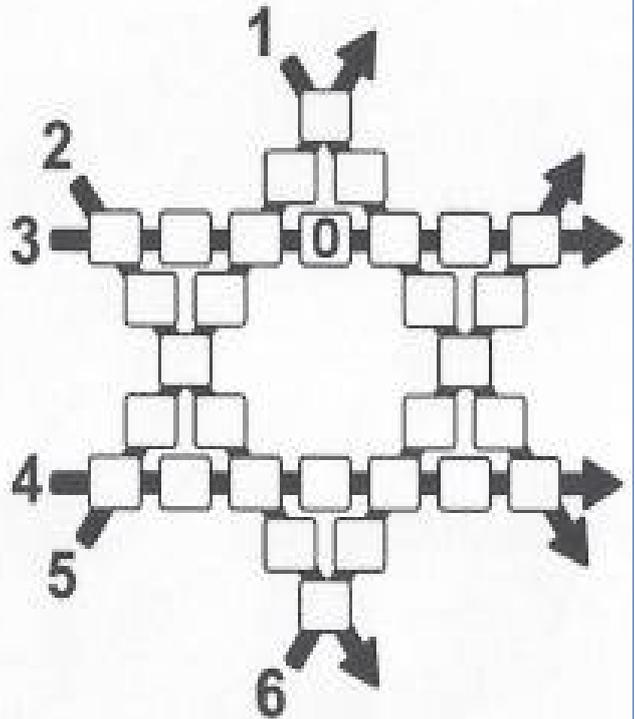

Each shape represents a whole number between 1 and 9. Two shapes may have the same value. What is the result of the last operation?

	+		=	10
	+		=	12
	-		=	3
	x		=	36
	-		=	?

WRITING IN THE STARS

Fill in the star using the 6 words below.

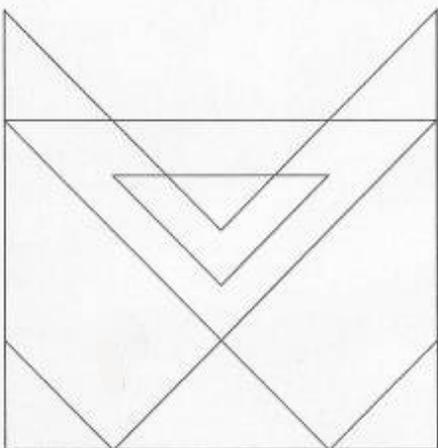

- TREMOLO
- OCTOPUS
- SPECIES
- TRICEPS
- SCOOTER
- SLEEPER

Solutions on last page.

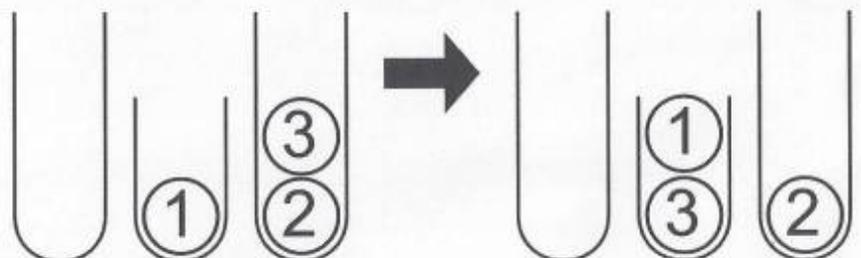

TRIANGLES

Count the number of triangles in this shape.

BALLS

Starting from the configuration on the left, find the minimum number of moves required to reach the configuration on the right. You can only move 1 ball at a time. The left and right columns can hold up to 3 balls. The middle column can hold up to 2 balls.

Things to Do When You Self-Isolate (...continued)

15. Sort through your old makeup and/or toiletries. Some of it may have solidified or passed its use-by date.
16. Unclog your computer by getting rid of unused files and photos. Sort through your photo collection, choose your favourite pics and order a photo book online.
17. Stay positive. Get your life in perspective. Make a list of things and the people you are grateful for.
18. Keep the economy going. Order online from the areas that need it most, such as small businesses or wineries that were impacted by the bushfires.
19. Pair up your socks. Yes really!
20. Wash the dog.
21. Instead of staring at your furniture all day, rearrange it.

Back In The Days Of Tanners And Bobs

Back in the days of tanners and bobs,
When Mothers had patience and Fathers had jobs.
When football team families wore hand me down shoes,
And TV gave only two channels to choose.

Back in the days of three penny bits,
when schools employed nurses to search for your nits.
When snowballs were harmless; ice slides were permitted
and all of your jumpers were warm and hand knitted.

Back in the days of hot ginger beers,
when children remained so for more than six years.
When children respected what older folks said,
and pot was a thing you kept under your bed.

Back in the days of Listen with Mother,
when neighbours were friendly and talked to each other.
When cars were so rare you could play in the street.
When Doctors made house calls and Police walked the beat.

Back in the days of Milligan's Goons,
when butter was butter and songs all had tunes.
It was dumplings for dinner and trifle for tea,
and your annual break was a day by the sea.

Back in the days of Dixon's Dock Green,
Crackerjack pens and Lyons ice cream.
When children could freely wear National Health glasses,
and teachers all stood at the FRONT of their classes.

Back in the days of rocking and reeling,
when mobiles were things that you hung from the ceiling.
When woodwork and pottery got taught in schools,
and everyone dreamed of a win on the pools.

Back in the days when I was a lad,
I can't help but smile for the fun that I had.
Hopscotch and roller skates; snowballs to lob.
Back in the days of tanners and bobs.

DOUBLE WARNING!!!

PÉTANQUE

Shooting Practice

Place a boule at 6 metres to start with. Using a good balance and a backward swing, cup another boule in your hand lightly and act like you want to throw your hand away, feeling the stretch of your fingers at the end of the throw. The boule has to have a curved trajectory to attain the goal without touching the ground first.

When you have mastered the 6 metres, progress to 7, 8, 9 and 10 metres.

GOOD LUCK!

QUIZ - SECONDS

1. Who was the 2nd person to fly non-stop and solo across the Atlantic Ocean?
2. Who was the 2nd person to run a sub-4-minute mile?
3. Measured by height, what is the 2nd largest living bird?
4. What is the 2nd most populated city in the world?
5. How many seconds are there in 2 hours and 32 minutes?
6. Who was the 2nd man to walk on the moon?
7. What is the 2nd element on the Periodic Table?
8. Who was the 2nd Prime Minister of Australia?
9. What is the 2nd smallest country in the world?
10. Who was King Henry VIII's 2nd wife?
11. What is the 2nd longest river in the world?
12. What is the 2nd highest mountain in Australia?

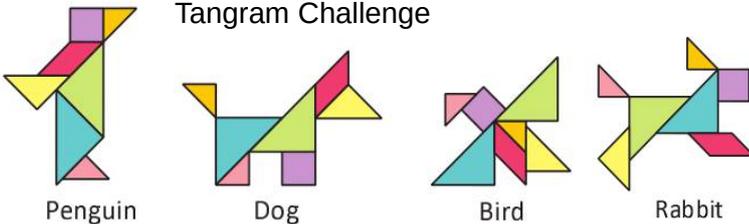

To go to the supermarket, they said
a mask and gloves were enough.
THEY LIED!
Everyone else had clothes on!

To thrive in
life you need
three bones:

A wish bone,
a back bone,
and a funny
bone.

Solutions to last week's
Tangram Challenge

What if they close the
supermarkets?
We'll have to hunt
for our food and
I don't even know
where Tim Tams live!

We welcome U3A Wanneroo members' contributions to KIT
