

U3A Perth Regional Highlights

▶ Pipedreams by Mike Lefroy

As WA's Chief Engineer, C Y O'Connor reached into the unknown when designing his two major projects – Fremantle Harbour and the Goldfields pipeline. Can his legacy inspire us as we contemplate life after Covid-19?

Mike Lefroy discusses why the next generation of scientists, economists and dreamers should be inspired by his great grandfather CY O'Connor, to take risks in these uncertain times.

▶ Auslan: Australian Sign Language interpreted with Barbara Alcock

Barbara is an educator with a passion for Auslan, the deaf experience and how the language evolved. She will deliver a light hearted talk describing how she came to be involved with the deaf, inform us on the background to the language plus she will teach us some Auslan signs so we all go home with at least one Auslan sentence!.

Friday 12 March 2021 1:30PM

▶ Story of the Duyfken with Nigel Ridgway

Built in 1595, the original Duyfken (meaning "little dove") belonged to the Dutch East India Company and is credited with the being the first European ship to land on the Australian mainland in 1606. She has become a popular learning resource --- for students and would-be sailors of all ages. Nigel is a yachtsman and musician who enthral his U3A colleagues with presentations of his seafaring adventures and will take you through the trials and tribulations of this famous icon of the seas.
