

# U3A Perth Regional Highlights

## ▶ Travel: Some Things I Didn't Know with Jan Fowler

Jan has a passion for travelling and has done so extensively. Despite her interest in countries around the world Jan found there was much she didn't know when she began to travel and was excited at what she uncovered. Jan invites U3A members and visitors to come along and share her discoveries as she takes us through the Shetland Islands, to Norway, France and South America. There will also be the opportunity to chat over tea and coffee in the TAFE Coffee Shop afterwards.

## ▶ What Physics Tells us About Our World with Peter Bifield

Peter was an Architect and has always been interested in Physics; teaching an introductory course at Curtin University. Despite Douglas Adam's insistence that 42 is the answer, it's Physics that provides our understanding of what we see around us, although sometimes the questions are also unclear! Peter will present what Physics has to say about Life, the Universe and Everything as well as highlighting areas that we just don't know! Join us for a fascinating tale and tea and coffee before the talk.

## ▶ In the Steps of Genghis Khan with Judith Amey

In 2018 Judith Amey travelled to Mongolia for the annual three day festival of Nadaam, which has its origins in the past when Mongolia was ruled by warlords and emperors like Genghis Khan and his ancestors. Today Nadaam is a festival when everyone dresses in their best and all things Mongolian, including their traditional sports of archery, wrestling, knuckle bone shooting and horse racing, are celebrated.

Besides the familiar names of Genghis Khan, Kublai Khan and Marco Polo you will also be introduced to others important in Mongolian history - Ogodie Khan, Zanabazar and Sukhbaatar.

## ▶ 150 years of trains in Western Australia

### with Geoffrey Higham

Geoffrey is a long time member of Rail Heritage WA and his main areas in the society are publishing, and assisting with sales and website. This society, founded in WA in 1959, operates WA's Railway Museum at Bassendean, restores rolling stock and smaller items, liaises with the community and government on rail heritage, and operates an extensive website.
